Experience

PRESENT **Lucky Kat Studios**   **Web3 Developer**
In my role as a Web3 Developer at Lucky Kat Studios, I led the seamless integration of blockchain components into gaming experiences, developing tailored SDKs for in-game implementation and crafting secure smart contracts for asset management on the blockchain. Additionally, I created user-friendly web applications to track and manage blockchain assets, enhancing overall user engagement and satisfaction. My contributions underscore a proven ability to bridge cutting-edge technology with user-centric solutions within the gaming industry.

Typescript, Javascript, React, NextJs, Move (Sui), Rust, Azure

2021-2022 **KOIOS**   **Full-stack Software Engineer**
Graduation Assignment: develop a dynamic NFT Dapp for the minors at KOIOS. I also develop and maintain their ongoing applications.

Typescript, React, NextJs, Solidity, MongoDB, Alchemy, TailwindCSS

2020-2021 **Methylium**   **Intern & Full-stack Software Engineer**
Internship Assignment: create a feature that allows for bulk update rollouts for the Electronic Room Assistant application at Methylium.

C#, Angular, MsSQL,

2016-2022 **De Beren**   **Asstistant Manager**
All-rounder that performs day-to-day tasks, but also supervises personnel.

Managing, Planning, Customer Support, Delivery Logistics

Projects

2022-2022 **Dynamic NFT Dapp**   **NextJS, Solidity, Alchemy, Web3, Tailwind**
A Dapp that enables gamification of education through the use of dynamic NFTs. This was a graduation assignment that has been completed successfully.

2022-2022 **Personal Porftolio**   **NextJS, Tailwind, Hygraph, Graphql**
My newest personal portfolio website build with the latest technologies. Including an ISR blogging feature.

2021-2022 **NFT Dashboard**   **React, Chakra, Moralis, Solidity, Web3**
A Dapp that allows the user to connect his/her web3 wallet, that fetches their NFTs.

2021-2021 **Automated Rollout Feature**   **C#, Angular, .NET, MsSQL, Scrum**
A feature for the Electronic Room Assistant application at Methylium.

2020-2020 **Web application**   **C#, .NET, MVC, Scrum, EF Core**
Web application for the company Keukenhof as an assignment to learn web development.
